Protective packaging

# Automotive and Transportation Packaging Solutions

The automotive and transportation world continues to evolve at a rapid pace - and so do the needs of OEMs and suppliers. Pregis has built a comprehensive portfolio of solutions tailored to the unique needs of customers - from faster throughput to sustainability.

Our mission is to deliver superior protection, labor and production efficiencies so you can ultimately safeguard your bottom line. Our consultative approach evaluates the manufacturing and supply chain process to recommend the best solution for your operations.

**At Pregis, our goal is to not only protect your product, but your brand and reputation, as well.**

**Containment & Wrapping** for component and parts shipping: Applications that require protective encapsulation, abrasion resistance and cushioning support.

**Surface & Edge Protection** for products with delicate finishes and surfaces that abrade, scratch or mark easily: Wide spectrum of protective films and wrapping materials carefully matched to your surface needs to prevent damage during manufacturing, assembly and transport.

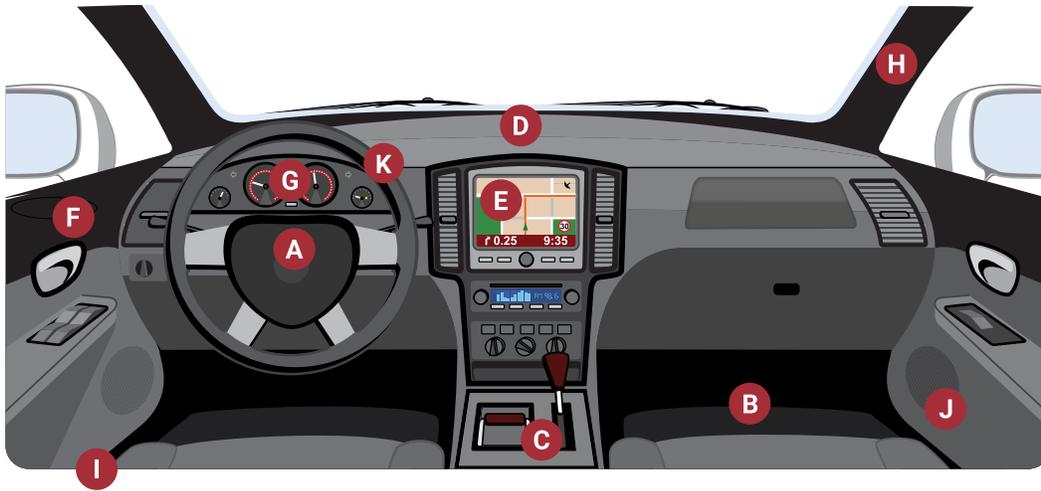

**Cushioning** to prevent damage caused by shock and vibration: Versatile range of cushioning products provide protection from unavoidable motion and vibration between the packaging and its contents. Available in on demand and ready-to-use forms.

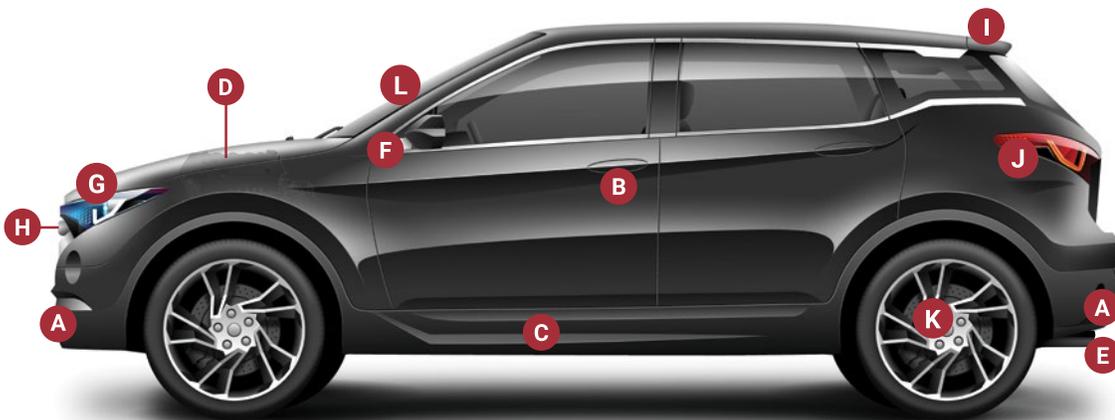

**Block & Brace** to lock items into position and prevent unwanted or damaging movement. Customized and scalable solutions to create productivity gains.

## Interior Parts, Components and Surfaces

- A** Airbag Covers

## **IntelliPack® Foam-in-Place Systems**

provide the highest degree of product protection. It efficiently creates a custom fit, protective shell to lock heavy, high value or odd shaped automotive parts into place and eliminate damage.

**PolyPlank® closed-cell polyethylene (PE) plank foam** is both resilient and non-abrasive. The foam is fabricated to your needs to provide excellent shock and vibration protection during transport.

## **Pregis PolyMask's Temporary Protective Films**

offer a number of solvent and water-based solutions to meet your unique needs. Our films are designed to protect interior and exterior surfaces on all types of vehicles from scratching, marring and abrading. Pristine interiors, flawless paint, chrome that gleams, lights and lenses that are damage free, clear and clean.

**AirSpeed® inflatable on demand packaging solutions** are available in high performance cushioning options to accommodate a wide range of shipping needs. It improves packaging line efficiency while it minimizes labor and packaging costs.

**Easypack® Paper Packaging** provides consistent, reliable paper cushions that nestle around the automotive product and limit movement. The 100% recycled, recyclable and biodegradable paper is an environmentally conscientious customers option.

## **Additional Applications**

- **Bumper guard solutions** provide surface protection and cushioning
- **Automated packaging and bagging systems** for small parts and components
- **Shipping supplies:** Bubble, foam, mailers and pouches
